First I was able to read Cavafy's poems well.

Going on reading, I found words, that were homosexual, beautiful boys and so on. And I felt difficulties making an animation from poems.

I wasn't able to got the idea about an animation.

But I didn't have much time.

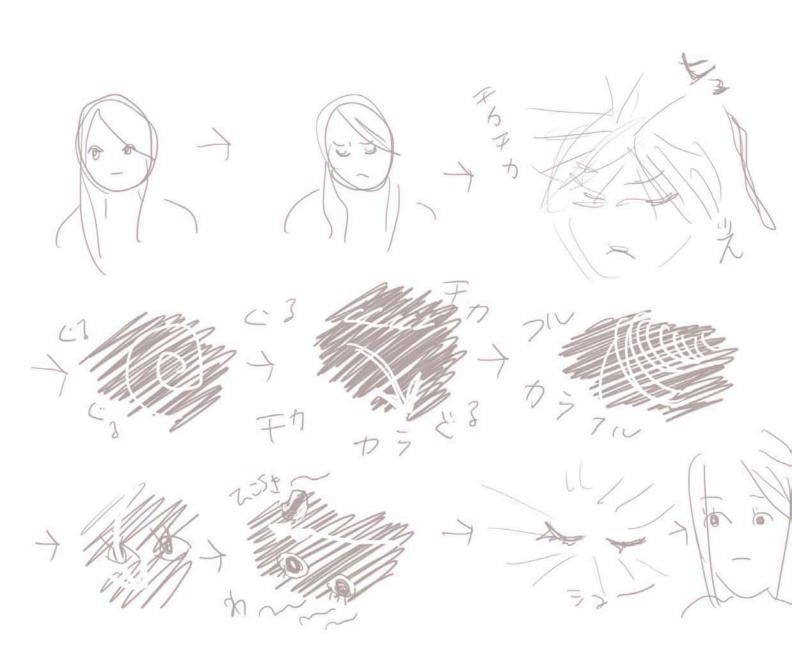

Well, I made my animation inspired by Cavafy's poetry as a whole, and not by each poem.

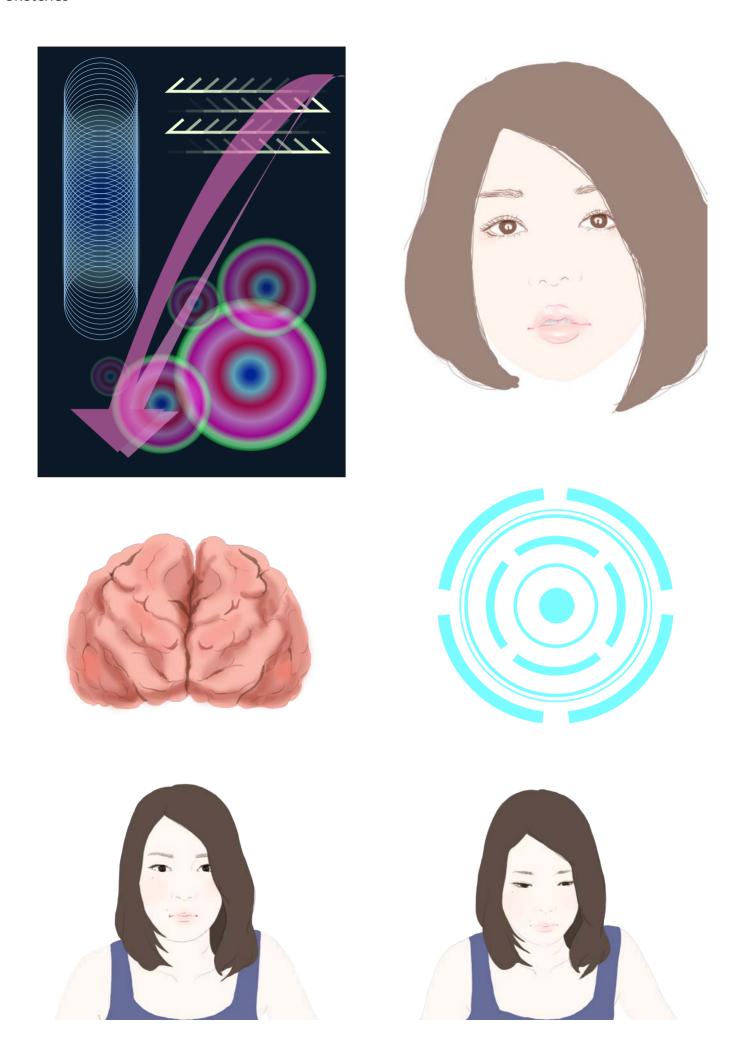

I want to represent my feelings, confusing, chaotic, psychedelic, techno music and electric signals in my brain.

A main character is a woman, maybe it's me.

In the woman's brain, frustrations and confusing fricker and occur chemical reactions. Sometimes a Cavafy is seen dimly.

I want to make beautiful chaos and psychedelic images.
